

# Join us for the **7th** Annual Innovators in Education Virtual Conference

Saturday, October 17, 2020

## Alliance Pediatrics

Alliance Pediatrics provides support to children and adolescents in their daily experiences. Licensed psychologists and licensed behavior analysts collaborate with children, teens, parents and educators to assess areas of needs and strengths. Results-oriented interventions are individually created based on the clients' unique needs. Services include: staff & caregiver training, therapy, school consultations, etc.

## **Karen Cassidy**

## **McLean School**

McLean School, we understand students first for what they can do, not for what they can't do. This abilities-driven approach enables bright students, including those with dyslexia, anxiety, ADHD, or organizational challenges to be successful in and out of the classroom. For over 65 years, we have helped students realize their full potential with a comprehensive college-preparatory curriculum that is traditional without being rigid, challenging without being intimidating, and designed with the real world in mind. At McLean, we believe in our students.

## **MOCO Movement Center**

MOCO Movement Center provides pediatric physical therapy, occupational therapy, speech and language therapy in addition to inclusive recreational opportunities. MOCO's proprietary method, MOCO's Applied Functional Therapy TM, helps your child achieve better functional outcomes. By taking evidence-based pediatric therapy out of the clinic and integrating it into real life activities, no child misses out on social engagement while they spend time in therapy. With a synthetic ice rink, climbing walls, agility courses, music studio, and access to so much more - we find something for every child to connect with. Families and therapists have seen the benefits that come from creating an ever-changing, adaptable environment where children can play side-by-side with their peers. We provide cutting-edge and effective therapy. Therapists work with your child on foundational skills in MOCO Movement Center and then take them out in the "field" where the child can practice real-life skills needed to participate with their community, peers, and family in places such as a climbing center, ice skating rink, playground, hiking path, music and art studio.

## **National Institute of Mental Health (NIMH) Psychological Treatments for Youth with Severe Irritability**

Children who enroll in our studies have irritability that significantly impacts their functioning at home, in school, and with other children. These studies seek to find out whether certain research treatments can be effective for children who are very irritable. Eligible children may be offered a diagnostic assessment, a new approach to cognitive behavioral therapy, or non-treatment research options. Parent and child must agree to child's participation. Child can remain on current medications.

To find out if you qualify, [email NIMH](#) or call **1-301-496-8381** [TTY: 1-866-411-1010].

**Protocol Number:** [02-M-0021](#)

## **Partnership for Extraordinary Minds**

Partnership for Extraordinary Minds (<https://xminds.org>) is a volunteer-driven nonprofit dedicated to improving education for students on the autism spectrum in Montgomery County, MD. We advance our mission by providing to families and educators a range of resources, including autism trainings, speaker events, Q&A's with autism experts, panel discussions with autistic self-advocates, and assistance with IEPs.
