VIRTUAL PEERS FLEX

PEERS® is an evidence-based treatment program developed by UCLA to teach teens with social challenges how to make and keep friends. Through didactic learning instruction, role-play, and “opportunities to practice” teens will learn the steps necessary to foster interpersonal relationships. The PEERS model includes a social coaching component for parents and family members

OUR PEERS VIRTUAL SOCIAL GROUPS CONNECT ADOLESCENTS IN MIDDLE AND HIGH SCHOOL

PEERS is an UCLA evidence based program that bolsters social skills while empowering teens/tweens to connect.

PEERS GROUPS

PEERS EXTENDED

Have you participated in PEERS in the past? Does your teen need opportunities to connect with others socially during this time of social distancing?

We are offering PEERS Extended, a 5-week virtual program. PEERS extended joins together and practice the set of tools introduced in the PEERs program.

This is a unique opportunity for your teen to socialize and obtain support during this challenging time.

PEERS EXTENDED FREE PARENT SESSION

We will be providing a FREE parent coaching session for all families who participate in PEERS Extended. Parent coaching sessions allow parents time to connect and discuss how to support their teens socially.

PEERS FACILTATORS

Groups are facilitated by Susan M. Abrams M.A. CCC-SLP and Joy Kolb, Ph.D., BCBA-D. Sue Abrams is a certified provider of the UCLA PEERS® program and completed the Social Thinking Clinical Training Program. Joy Kolb is a licensed psychologist and a Board Certified Behavior Analyst with expertise in CBT and behavioral interventions. Ms. Abrams and Dr. Kolb have over 60 years of combined clinical experience and collaborate to bring out the most of each PEERS experience.

PEERS groups may be covered by insurance.
